

## **Primo Brands Corporation Public Policy Statement**

### **Sustainable Development Goal #6: Help ensure availability and sustainable management of water and sanitation for all.**

At Primo Brands Corporation (“Primo Brands”), we are driven by our mission to *Hydrate a Healthy America*, and we value that safe drinking water, sanitation, and hygiene are crucial to human health and well-being. Primo Brands is committed to providing access to safe drinking water, adequate sanitation, and proper hygiene (WASH) practices for employees and the communities where we operate. We will continue to advocate for policies aligned to Sustainable Development Goal #6 on Clean Water & Sanitation to help improve access to clean water for all, and in pursuit of our mission to *Hydrate a Healthy America*.

### **Commitment to Resiliency, Recycling and Adaptation**

At Primo Brands, we are acutely aware of the escalating impact of increasingly severe weather events including flooding to droughts. Primo Brands is working to do more to help protect the natural environment that sustains our business and strengthens the communities where we operate. Through diligent management of energy and transportation use, we will continue to aim to reduce our carbon emissions over the next several years. Primo Brands supports the objectives of the Paris Agreement. We have committed to set near-term company-wide emission reductions targets.

To mitigate extreme weather risk, Primo Brands supports policies that advance resiliency and adaptation as well as help conserve spring sources, watersheds and the natural environment. Our advocacy activities are aligned with the goals of the Paris Agreement. We support public policy that promotes access to clean energy, sustainable transportation, and other decarbonizing efforts.

In addition, Primo Brands is a strong advocate for improving recycling infrastructure that fosters a circular economy and prevents waste from entering the natural environment. Primo Brands is a member of the Business Coalition for a Global Plastics Treaty and a founding member of the Coalition for High Performance Recycling.

At Primo Brands, we monitor our trade associations and partnerships to prevent misalignment between our public policy positions and advocacy efforts.
